The effects of global warming are the environmental and social changes caused (directly or indirectly) by human emissions of greenhouse gases. There is a scientific consensus that climate change is occurring, and that human activities are the primary driver. Many impacts of climate change have already been observed, including glacier retreat ...

September 14, 2006. "Global Warming" is a psychological operation, a "psyops", to condition the public to believe that we are going to be in a lot of trouble in the near future if we don't take steps "X,Y, & Z", and do it quickly. Those "steps" are what the Illuminati want us to follow so they can further consolidate their control over our ...
