It's a Fender Pro 185. I think it's from sometime in the 80's, judging by the red knobs. Am I right about this? Any way to date these things? I think it's from sometime in the 80's, judging by the red knobs.

Such as, imho, the Fender Stage and Pro 185. At Harmony Central the old Stage 185 is one of the highest rated Fender amps which doesn't surprise me. I owned one for 6 years and it suited especially my strat perfectly. The 185 amps produce a lush, roomy and warm sound that is very different from say the smaller Deluxe 112 plus that I play in my study. That one is cardboard in comparison to the 185.
